2. This whole-bean espresso is rich and balanced. I first tasted it at Via Quadronno in New York City and now use it at home. Outside of Italy, the best way to order the coffee is through their American distributor, Kobricks.

3. This silicone mitt can withstand heat up to 500°F, and when you're done cooking, you just toss it in the dishwasher. It comes in gorgeous colors, from tangerine to plum, but I use the translucent ones at the studio.

6. I use this amazingly light lotion after every shower. Made with algae oil, marjoram, and other herbal extracts, it's better than moisturizer: It's the new perfume!
